Who We Are

Farzan Enterprises is a Kanpur-based supplier of medical equipment with more than five years of experience serving hospitals, diagnostic and imaging centres, blood banks, pathology laboratories and medical colleges across Uttar Pradesh and beyond. As authorised channel partners of Allengers Medical Systems Ltd. and REMI Group, we supply genuine, manufacturer-backed equipment — radiology and imaging systems on one side, and blood bank & pathology instruments on the other — with proper billing, warranties and coordinated installation.

Beyond capital equipment, we also supply the products and consumables that keep healthcare running every day — histopathology and laboratory supplies, medical imaging films, rapid diagnostics and blood bag systems, clinical disposables, hospital furniture, medical textiles and ophthalmic equipment — sourced from reputed manufacturers such as Leica Biosystems, Thermo Fisher Scientific, Sakura, Fujifilm, Carestream, SD Biosensor, Polymed, Romsons, Dispo Van, Desco and Curitex. Equipment or consumables, every order gets the same honest guidance, transparent quotation and dependable after-sales attention.

Our Mission

To make quality medical equipment accessible to healthcare institutions by supplying genuine, competitively priced systems backed by authorised-channel warranties, professional installation and dependable after-sales service.

Our Vision

To become the most trusted medical equipment supply partner in Uttar Pradesh — the first call hospitals, blood banks and laboratories make when planning a new setup or upgrading an existing one.

■ Authorised Channel Partner

We supply through official manufacturer channels — genuine equipment, valid warranties and full documentation on every order.

■ Right-Fit Guidance

We help you choose the configuration that matches your caseload and budget — no overselling, no under-specifying.

■ Installation Coordination

From site readiness to manufacturer installation and commissioning, we coordinate the process end to end.

■ After-Sales Support

A single point of contact for service requests, spares and manufacturer escalations — so downtime stays minimal.

GENUINE SUPPLIES

What We Supply

X-Ray & DR Systems **RADIOLOGY · ALLENGERS**

Fixed and mobile X-ray machines, high-frequency generators and digital radiography (DR) systems for hospitals and diagnostic imaging centres — configured to your patient load, with manufacturer installation and warranty.

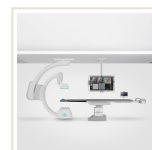

ALLENGERS

C-Arms & Cath Labs **SURGICAL & INTERVENTIONAL IMAGING**

Surgical C-arms for orthopaedics, urology and general surgery, and cath lab systems for cardiology and interventional procedures — planned end to end, from room readiness to commissioning.

ALLENGERS

Mammography & Women's Imaging **SCREENING & DIAGNOSTICS**

Mammography systems for breast screening and diagnostic programmes — helping hospitals and imaging centres deliver early-detection services with dependable, manufacturer-backed technology.

ALLENGERS

Blood Bank Equipment **TRANSFUSION SERVICES · REMI**

Complete blood bank setups — blood bank refrigerators and storage cabinets, blood collection monitors, platelet incubators and agitators, plasma expressors, tube sealers, thawing baths and donor chairs.

REMI GROUP

Pathology & Laboratory Equipment **DIAGNOSTICS · REMI**

Laboratory and clinical centrifuges, serology and PRP centrifuges, shakers, stirrers, incubators, hot air ovens and allied instruments for pathology laboratories, hospitals and research institutions.

REMI GROUP

Installation & After-Sales Support **ACROSS ALL EQUIPMENT**

Site-readiness guidance, manufacturer installation and commissioning, operator orientation, and a single point of contact for service, spares and warranty support throughout the life of your equipment.
